| Date | Description | Amount (s) | Balance (s) |
|---|---|---|---|
| 09 Jun | ATM withdrawal: Mars Station | -259,200 | 416,874,718 |
| | The machine's cash count was reconciled to the ledger to the second. It was one short, and the shortage is entered against the machine rather than the account, where the machine can be asked to explain it. Ref. CIBT-3003-B2DD-0 | | |
| 09 Jun | Transfer to own account: Mars Station | -17,025,626 | 399,849,092 |
| | The exchange fee was held for 31 days, because the rate posted on the day of exchange was printed on a notice that had been put up a day early. The notice has been taken down. The rate it showed is the one on this statement. Ref. CIBT-3003-7832-0 | | |
| 10 Jun | ATM withdrawal: Mars Station | -259,200 | 399,589,892 |
| | Waiting time at Mars Station depends on the customer. The machine has been taught to wait while the receipt is read, and it waits longer for slow readers, which the branch regards as the machine's most civil feature. Ref. CIBT-3003-131B-3 | | |
| 11 Jun | Payroll credit: the Europa Ice Authority | +4,191,084 | 403,780,976 |
| | An entry on your previous statement, shown as a wage from the Europa Ice Authority, was a transfer from your own 8564-9556-7708 and has been reversed. The wage itself appears below, in full, and is the only one that belongs to this period. Ref. CIBT-3003-95D6-0 | | |
| 30 Jun | Interest at 3.90% APY | +1,355,685 | 405,136,661 |
| | The Europa Ice Authority takes the Bank's statement fee from its staff's pay and asked whether it could do the same for you. The Bank has said the fee is waived for depositors whose employers pay it, and so it is. Ref. CIBT-3003-6095-0 | | |

*Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.*
