Branch Hall E, Pallas Ring 10
Clock Pallas Ring 10 local

Opening balance	Credits	Debits	Closing balance
5,882,974 s	**+1,387,147 s**	**-528,312 s**	**6,741,809 s**

Date	Description	Amount (s)	Balance (s)
02 Oct	Deposit: Hall E	+1,205,605	7,088,579
	The deposit was taken at the Titan dome window, where the glass is kept at the lake's temperature and the coins arrive in gloves. The sum was counted in days and converted at the posted rate, and the damp marks on the slip have been left as they are. Ref. CIBT-3027-FC08-5		
08 Oct	Slippage fee (Singapore Sector, 3 transfers)	-1,800	7,086,779
	Your crossing to Singapore Sector was made while the local day was at its shortest, so its slippage has been reckoned at the short-day rate. The rate is posted on the branch door, where the local officers say it is read more often than the rest of the notice. Ref. CIBT-3027-ABCF-2		
08 Oct	Transfer to joint account	-94,512	6,992,267
	Phobos Drydock sends Yusra Fennimore's share of the joint transfer through its staff credit union, which charges nothing and asks only to be thanked, in writing, once a year. Ref. CIBT-3027-016E-4		
12 Oct	ATM withdrawal: Singapore Sector	-172,800	6,819,467
	Your withdrawal of 2 Standard days at the Singapore Sector machine was drawn on the account your employer pays into, at the employer's request, so that the wages are available on the day they arrive. Ref. CIBT-3027-1473-1		
18 Oct	Payroll credit: Phobos Drydock	+157,520	6,976,987
	Phobos Drydock's auditors asked for these wages to be held for 28 days. The sum was held because a batch of wages was split across two relays, and has now been released with the posted interest for the period. Ref. CIBT-3027-3DFC-0		
25 Oct	ATM withdrawal: Singapore Sector	-259,200	6,717,787
	After the machine lost power in a storm, the withdrawal waited 29 days for the relay to reconcile what the machine remembered. It remembered the sum correctly once it was back on, and the relay agreed with it. Ref. CIBT-3027-7C4F-8		
31 Oct	Interest at 4.90% APY	+24,022	6,741,809
	The interest was credited a second early, on the strength of a clock at Singapore Sector that the local office has since admitted was running fast. The early second has been taken back, and the sum is correct to the second. Ref. CIBT-3027-2B36-5		

Closing balance, month by month

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
