Ulla Whitlock
Unit 291, Pallas Ring 10

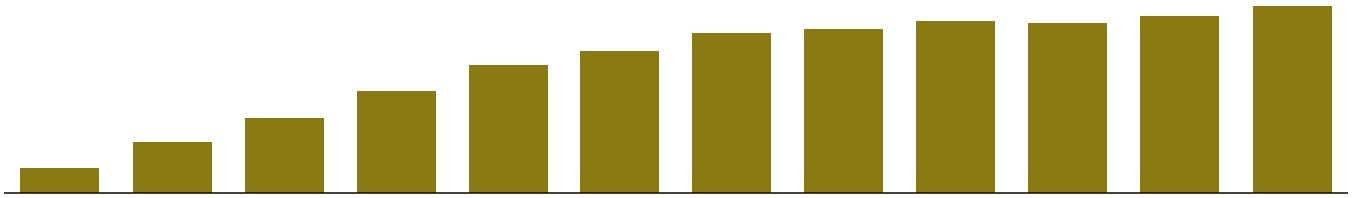

Account 8564-9809-0708
Period 1–31 March 3023
Branch Hall E, Pallas Ring 10
Clock Pallas Ring 10 local

Opening balance	Credits	Debits	Closing balance
130,492,429 s	**+5,512,781 s**	**-24,827 s**	**135,980,383 s**

Date	Description	Amount (s)	Balance (s)
08 Mar	Payroll credit: Kepler Ring Hydroponics	+863,708	131,356,137
	Note for the auditors: the Kepler Ring Hydroponics credit for the 8th carries 0.943 of a sol that appears on no other line. It was traced to the remitter's own rounding, found to be the remitter's, and left on the line it fell on. Ref. CIBT-3023-E366-8		
15 Mar	Turbulence Cover	-24,827	131,331,310
	Turbulence Cover: the carrier reports a delay of 18 minutes on the outbound leg from Phobos. The policy pays for time lost in the air and not on the ground, so the claim has been split, and the ground part is not covered. Ref. CIBT-3023-BBA2-7		
23 Mar	Deposit: Hall E	+4,116,229	135,447,539
	The Teller accepted the deposit with a nod and asked whether you wished the slip read back. You did not, and the Teller said it was the right answer, as it so often is. Ref. CIBT-3023-0272-3		
31 Mar	Interest at 4.90% APY	+532,844	135,980,383
	Interest is reckoned in Standard days wherever an account is kept, so the figure on this statement is 4.90% of a year counted by the Head Office clock rather than the branch's. The Bank has converted it at the posted rate and does not intend to discuss it further. Ref. CIBT-3023-EDFE-6		

Closing balance, month by month

Highest 135,980,383 s · lowest 50,881,949 s

April 3022 March 3023

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
