Branch Hall E, Pallas Ring 10
Clock Pallas Ring 10 local

Opening balance	Credits	Debits	Closing balance
147,019,858 s	**+13,322,008 s**	**-14,114 s**	**160,327,752 s**

Date	Description	Amount (s)	Balance (s)
12 Feb	Turbulence Cover	-13,814	147,006,044
	Desk note: the cover on this policy is for time lost in transit, not for time gained. The clerk has checked this twice, once for the policy and once for the holder, who asked which was which. Ref. CIBT-3027-2112-2		
13 Feb	Deposit: Hall E	+11,857,969	158,864,013
	The pen used to fill in your slip was returned to the counter with a note asking for it back once the deposit was posted. It is back, and the note has been filed with the slip. Ref. CIBT-3027-0603-5		
14 Feb	Payroll credit: Kepler Ring Hydroponics	+863,708	159,727,721
	The Kepler Ring Hydroponics credit was posted 29 days late because its office changed the calendar without telling us. It has since told us, and the Bank has moved its own calendar to match, which it does not do for many employers. Ref. CIBT-3027-CF61-4		
21 Feb	Slippage fee (Nairobi Sector, 1 transfers)	-300	159,727,421
	The Teller has never once heard the relay apologise for a slow crossing, and has never asked it to. She considers the arrangement suitable to both of them and to neither. Ref. CIBT-3027-3767-9		
28 Feb	Interest at 4.90% APY	+600,331	160,327,752
	The posted rate is set to two places and the interest to the nearest second, and the balance on the statement is then rounded to the nearest five hundred seconds for the reader's convenience. That is why the top line is always a little kinder than the one below it. Ref. CIBT-3027-8039-6

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
