Date	Description	Amount (s)	Balance (s)
06 Aug	Slippage fee (L4 Habitat, 6 transfers)	-5,400	146,403,055
	The crossing was entered 29 days late, because the relay's clock had been running on the far station's day for the whole week. The clock has been put back to ours, and the fee is charged on the day you sent the transfer, not the day the relay believed it was. Ref. CIBT-3029-BE62-5		
06 Aug	Deposit: Hall E	+1,873,865	148,276,920
	The slip gave 4 envelopes and the counter found 7. The slip was wrong, having been filled in before the envelopes were opened, and the Bank does not hold it against the slip. Ref. CIBT-3029-C868-9		
10 Aug	Payroll credit: Kepler Ring Hydroponics	+863,708	149,140,628
	Pay from Kepler Ring Hydroponics at L4 Habitat was converted on the day the crew came off the line. The local office considers that the day of the wage, and the Bank considers it the day the wage could be proved. Both views are on file. Ref. CIBT-3029-0694-7		
21 Aug	Turbulence Cover	-15,103	149,125,525
	Turbulence is measured by a gauge in the cable car's cabin, read to the nearest half-minute of jolt. A jolt of less than a half is not claimable and a jolt of a half or more is paid as a whole minute, which the underwriters call fair in a crude way. Ref. CIBT-3029-BD57-8		
31 Aug	Interest at 4.90% APY	+597,834	149,723,359
	A standing instruction moves the interest from this account to 8564-2913-8907 on the first working day of each period, and moves it back on the second. The arrangement has run for 2 years, and the balance has never once been asked to explain itself. Ref. CIBT-3029-E740-0
