Opening balance	Credits	Debits	Closing balance
210,832,379 s	**+53,970,965 s**	**-1,840,706 s**	**262,962,638 s**

Date	Description	Amount (s)	Balance (s)
08 Sep	Payroll credit: the Authority Records Office	+3,024,041	213,856,420
	The wage was rounded to the nearest whole second on the employee's own written instruction, which gave the reason as "it looks neater". The instruction is on file. It is the only one of its kind the auditors have seen. Ref. CIBT-3021-B5C2-4		
10 Sep	Deposit: Hall E	+50,367,135	264,223,555
	Each note on the slip was rounded to its own whole unit before the total was taken, so the total is 0.976 lower than the figure written on the envelope. The total is the one that matters, and it is correct. Ref. CIBT-3021-F4E0-7		
14 Sep	Transfer to joint account	-1,814,424	262,409,131
	Each quarter the joint account pays 8564-3635-9421 for a seed catalogue for a garden at Montréal Sector that neither holder has visited. The catalogue arrives on time with the same cover each year. Ref. CIBT-3021-E768-2		
15 Sep	Turbulence Cover	-22,682	262,386,449
	Last month's claim gave the cause as "the crew", which is the carrier's heading for every fault on the run. The cause was the wind on the Montréal Sector run, and the heading has been corrected to the wind, which the carrier had been entering under the crew for some years. Ref. CIBT-3021-F824-6		
28 Sep	Slippage fee (Montréal Sector, 6 transfers)	-3,600	262,382,849
	Each crossing is rounded to the nearest second on the way out and again on the way back, so that a return journey costs one second more than its two legs added together. The relay keeps the second. Ref. CIBT-3021-0A71-5		
30 Sep	Interest at 3.30% APY	+579,789	262,962,638
	The interest was posted on the 30th, while a courier was asleep upright against the sorting case, and the window was asked to confirm the sum aloud, which it did, to a queue that had not been expecting to hear it. Ref. CIBT-3021-57FA-1

May 3021 September 3021

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
